- HTML5
- CSS
- JAVASCRIPT
- BOOTSTRAP

PROJECTS

• Digital calculator

I have created this project with the help of technologies like HTML5, CSS3 and JavaScript.

This is a fully functional calculator that works normally as a calculator which is fully responsive meaning it can be used in any platform like Androids, Tablets, Laptops, Desktops, etc.

Live Demo: <https://karan1564.github.io/-Digital-Calculator-app>

GitHub: <https://github.com/karan1564/-Digital-Calculator-app>

- **Tic Tac Toe Game**

This is the project that is fully based on Javascript and in this project for designing I have used CSS3 and HTML5. This project of mine is also fully responsive which can be used in any platform like Androids, Desktops, Laptops, Tablets, MacBooks, etc.

Live Demo:<https://karan1564.github.io/Tic-tac-toe-game>

GitHub:<https://github.com/karan1564/Tic-tac-toe-game>

- **Portfolio website**

I have designed this portfolio website where we can add our projects in project section and here also I have used HTML, CSS3 and JavaScript. This website that I have designed can be used in any devices because of its full responsiveness and compatibility

Live Demo: <https://karan1564.github.io/My-portfolio-website>

GitHub:<https://github.com/karan1564/My-portfolio-website>

- **Currency Converter App**

I designed this Currency converter app using the technologies like JavaScript, HTML5 and CSS3. It is a brilliantly designed currency converter app which gives the exact currency rate with fully responsive working functions, suitable for any platform like Laptop, Desktop, iPad and Mobile, etc.

Live Demo: <https://karan1564.github.io/Currency-converter-app>

GitHub: <https://github.com/karan1564/Currency-converter-app>

- **E-commerce store**

Built a responsive e-commerce platform with features including product catalog, cart total filtering/search, and shoppingcart functionality. Designed an intuitive UI to improve user engagement and ensured cross-device compatibility. I have designed this project by using technologies like HTML, CSS, Javascript and Bootstrap.
